

Stuart E. Brown, II, DVM

- BA, Transylvania University, Lexington, KY, 1986
- DVM, Tuskegee University, College of Veterinary Medicine, 1991

Professional Experience:

Hagyard Equine Medical Institute, Lexington, KY – 1991 - Present

Practice specializes in the area of equine reproduction within Thoroughbred industry in Central Kentucky. Areas of interest primarily focused on broodmare reproductive evaluations, purchase evaluations including radiographic and endoscopic examinations for horse sales at public auction, routine herd health preventive medicine, routine primary care, and federally required testing for the import and export of horses internationally. Frequently a consultant on cases on both the national and international level and have the opportunity to speak regularly at various veterinary and horsemen conferences.

Have been a partner in the Hagyard Equine Medical Institute and served on its Executive Committee for over 12 years, including three terms as its President. Over the past two years, actively engaged in the management and planning of this multi disciplined practice, most recently serving as the Director of External Development on behalf of the ownership interest in the practice.
