Dear KTDF Committee members,

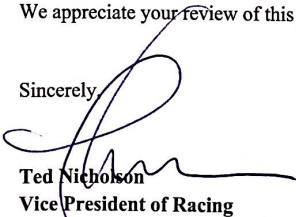

Based on the continued growth of the Kentucky Downs live racing season and our projections for 2021, we respectfully request the committee's approval to offer up to \$6.8 million in KTDF purses and up to \$150,000 in advertising to help promote the state's support of Kentucky thoroughbreds and racing. As per 810KAR 1:090, we are also requesting a transfer of \$2.1 million of KTDF funds to Ellis Park to enhance their summer meet and to entice quality Kentucky-breds to remain in the commonwealth for the summer/fall calendar. As in the past, Kentucky Downs is committed to strengthening the overall circuit, and feel these funds are well directed.

Kentucky Downs finished its 2020 Covid meet with an amazing 46% increase in handle over a strong 2019 season. Our HHR growth has continued its upward trajectory in 2021 and is currently up 24% year over year. Based on these growth trends, we feel confident that our requested KTDF offering is an appropriate and conservative requisition of the state's funds.

We plan to pay KTDF money to every eligible starter as in the past. The 2021 meet will provide a minimum of \$1000 to each starter. Additionally, if a non-KTDF eligible horse is involved in a dead heat, those funds will revert back to the fund.

We appreciate your review of this proposal and urge your approval of this plan.

SUBJ.: KTDF PURSE STRUCTURE – ELLIS PARK SUMMER MEET

On April 6, 2021 the KTDF Advisory Committee considered the following request from Ellis Park with its KTDF purse structure for the 2021 Summer Meet.

Ellis Park is proposing KTDF purses in the range of \$3.9 million, which includes a \$2.1 million transfer from Kentucky Downs pursuant to 810 KAR 7:030. KHRC staff confirms that at the end of 2020, Ellis Park had a surplus of \$4,000. Projections are based on a payout of 95% of the amount carded.

Ellis Park will pay out KTDF funds through last place and if a non-eligible KTDF horse is involved in a dead heat, those funds will revert to KTDF.

The KTDF Advisory Committee recommends approval.

Committee Members:

Ellis Park reviewed our KTDF data and with our projections in live race handle along with Historical Horse Racing handle, we propose to pay KTDF purses in the range of \$3.9M for the 2021 summer meet, which includes \$2.1M transferred from Kentucky Downs from wagers on HHR. We have based the range on the following information:

1. We ended the 2020 race meet with \$4k KTDF funds.
2. In our 2020 summer meet we offered approximately \$2.7 in KTDF purses (inclusive of \$1.2M KTDF funds transferred from KY Downs and Keenland) and paid out \$2.7M in KTDF purses (\$108k per race day).
3. We are assuming a KTDF payout percentage of approximately 95%.
4. We are projecting daily KTDF purses paid of \$125k for the 2021 season covering 31 races days, which is an increase over the \$108k per day in 2020 for 25 race days.
5. Ellis Park will pay out KTDF funds through last place as follows:
 - a. 1st Place = 60%
 - b. 2nd Place = 20%
 - c. 3rd Place = 10%
 - d. 4th Place = 5%
 - e. 5th Place = 3%
 - f. Remaining 2% divided evenly among starters
 - g. If a non-KTDF eligible horse is involved in a dead heat, those funds will revert to the fund
6. Ellis Park will continue to monitor the earnings and payouts on a daily basis and adjust these figures accordingly.

Subject: 2021 Ellis Park Improvements

As we all know, 2020 was a challenging year for the industry. While we began with plans for expansion, and were performing work toward track lighting, turf expansion and tote board replacement, our plans had to be put on hold for the remainder of the year.

With 2021 looking up, we are beginning to reengage regarding expansion. This included restarting our work on track improvements, as well as clubhouse expansion. We expect to regain funding in late Q-2 or early Q3 of this year.

Short Term:

Regardless of timing of expansion funding, Ellis is planning on making the following improvements out of existing operating funds by the end of the calendar year:

- High Def Fiber Runs to Cameras and Backside.
- Covering backside manure pit.
- General track improvements.
- Wireless on-property betting.
- A new web site with improved Racing / Simulcast content
- Self-serve player kiosks specifically for simulcast guests.
- Addition of a three-meal restaurant and an additional bar in the simulcast area.

Long Term:

Long term improvements tied to regaining capital funding include our previously stated goals.

Turf widening
Track Lighting
Grandstand improvements

Turfway Park has included a bid for the project and intends to collect additional bids. The total estimated cost is \$74,580. KHRC staff confirms Turfway Park has a balance of \$76,420.13 and this is a necessary improvement. The Kentucky HBPA and KTA are both in favor of this project.

The purpose of the Backside Improvement Fund is to promote, enhance and improve the conditions of the backside of eligible racing associations in Kentucky. A backside facility is defined as those facilities located at thoroughbred horse racing associations in Kentucky where horses are stabled and quartered and where stable employees work and live [810 KAR 7:010].

Re: Ratification of Executive Director Approval of Totalizator Services and Advance
Deposit Account Wagering Change of Control Forms for Betmakers US, Inc.

On December 8, 2020, the Kentucky Horse Racing Commission ("KHRC") unanimously approved renewal license applications to provide totalizator services and advance deposit account wagering for Sportech Racing, LLC ("Sportech Racing") and eBet Technologies, Inc. ("eBet").

On February 24, 2021, the KHRC received an Advance Deposit Account Wagering Change of Control Form and a Totalizator Services Change of Control Form related to each of the above-referenced entities. The application forms were properly submitted by Betmakers US, Inc., as the business entity seeking to acquire a controlling interest in Sportech Racing and eBet.

In a letter dated March 10, 2021, Sportech Racing and eBet's parent company, Sportech PLC, also informed the KHRC of its intent to undergo a transaction that would result in the corporate change of ownership discussed above.

Betmakers US was formed in 2021 as a corporation in Delaware. Its principal business office is currently located in Wilmington, DE. Betmakers US is 100% owned by BetMakers Technology Group Limited ("Betmakers Technology Group"), a publicly-traded company operating in New South Wales, Australia.

Due to the transaction's expeditious nature, KHRC Executive Director Marc Guilfoil conditionally approved both change of control forms submitted by Betmakers US pursuant to KRS 230.230(1), following review by KHRC staff and Commissioner Frank Kling. The KHRC staff recommended this conditional approval to give all involved parties ample time to prepare for the transaction. This change of control does not have any immediate impact on current pari-mutuel wagering operations within Kentucky.

As noted above, the KHRC staff and Commissioner Kling have reviewed all items submitted by Betmakers US concerning this transaction, and they recommend ratification of the conditional approval provided by Executive Director Guilfoil.

Re: Change of Control

Dear Mr. Buckingham:

The Kentucky Horse Racing Commission ("KHRC") has received and reviewed the Totalizator Services and Advance Deposit Account Wagering Change of Control forms submitted by BetMakers US, Inc. It is the Commission's understanding that BetMakers US, Inc. plans to assume direct control of Sportech Racing, LLC and eBet Technologies, LLC, both of which were approved by the KHRC to provide totalizator services and advance deposit account wagering for the 2021 license year. It is also the Commission's understanding that Sportech Racing, LLC and eBet Technologies, LLC will continue to operate within Kentucky as described in their 2021 Renewal License Applications to Provide Totalizator Services, as well as their 2021 Renewal License Applications to Conduct Advance Deposit Account Wagering. If there are any changes to the items submitted with these applications, the Licensee(s) must notify the Commission before implementing those changes.

In consideration of the minor but immediate impact to operations, the Change of Control forms submitted by BetMakers US, Inc. are hereby conditionally approved, pursuant to KRS 230.230(1). Re: Notice of Pending Transaction and Request for Guidance

Greetings Mr. Ahmed,

Please receive this letter as both notice of a pending transaction and as a request for guidance regarding those particular licenses that have been issued by your regulatory body to eBet Technologies Inc. ("Licensee"). *To wit*, at a General Meeting on December 24, 2020, the shareholders of Sportech PLC (Licensee's parent-entity) approved of a transaction that, upon completion, would result in a change of Licensee's corporate ownership. See Exhibit A (Announcement RNS) & Exhibit B (Results RNS). In relevant part, the pending transaction contemplates the acquisition of Licensee's corporate ownership by BetMakers Technology Group LTD ("BetMakers"). BetMakers is a licensed and publicly traded gaming company based in Australia (ASX:BET), and has announced that it does not intend to initiate any changes to Licensee's existing officers, management, operations, personnel, or customers. See Exhibit C (additional information about BetMakers) & Exhibit D (Organizational Chart). BetMakers is being represented in the matter at hand by Attorney Gil Brooks of Duane Morris LLP (on CC), with whom Licensee (via the undersigned) is working-in-concert to maintain and achieve regulatory compliance for the pending transaction.

With regard to the foregoing, Licensee herein requests guidance as to whether there are any Pre-completion and/or Post-completion requirements necessary to maintain its compliance with your regulatory body. Both Licensee and BetMakers are committed to completing the pending transaction in the first half of 2021, and in ensuring transparency and diligence with its regulatory and licensing obligations. Along those lines, please do not hesitate to contact either me or Gil for additional information about the pending transaction, or Licensee, or BetMakers. Your prompt response and guidance will be much appreciated.

Sportech plc

("Sportech", the "Company" or the "Group")

Proposed disposal of the Global Tote business

Further to its announcement yesterday, Sportech, an international betting technology business, is pleased to announce that it has entered into a conditional agreement to sell its Global Tote business to Betmakers Technology Group Ltd ("BetMakers") (the "Disposal"), for a total cash consideration of £30.9 million (the "Consideration"), subject to an adjustment to reflect the level of working capital in and the valuation of the US defined benefit pension liability attributable to the Global Tote business at completion of the Disposal ("Completion").

The Global Tote business provides pari-mutuel technology solutions and services to gaming businesses around the world, predominantly to the global horseracing betting industry. Its systems processed approximately US\$12.2 billion in betting handle in the financial year ended 31 December 2019 for clients across 37 countries.

Highlights

- Agreement signed to sell the Global Tote business for a total cash consideration of £30.9 million, conditional upon approval of the Disposal by Sportech's shareholders and BetMakers receiving relevant regulatory approvals prior to Completion.
- The current estimated US defined benefit pension liability attributable to the Global Tote business is approximately £1.0 million.
- An initial cash amount, representing 20 per cent. of the Consideration, is payable upon approval of the Disposal from Sportech's shareholders and is non-refundable.
- The remaining Consideration is payable in cash upon Completion.
- It is Sportech's board of directors' (the "Board") current intention to return the majority of the proceeds to the Company's shareholders when the Board considers it opportune to do so. The timing and extent of any such return will take into account the Group's organic and inorganic investment opportunities, as well as the Group's general ongoing capital requirements, in light of plausible trading scenarios.
- The Disposal is classified as a Class 1 transaction as defined by Chapter 10 of the FCA's Listing Rules. In addition, the Company is in an offer period (as defined in the City Code on Takeovers and Mergers (the "Code")) as a result of the possible cash offer for the Company by Standard

General L.P. announced on 5 November 2020 (the “Possible Offer”). The Disposal may, therefore, require shareholder approval pursuant to Rule 21.1 of the Code. As such, a circular containing further details of the Disposal and a notice of a general meeting to approve the Disposal for the purposes of the Listing Rules and the Code will be sent to Sportech’s shareholders in due course.

- Subject to the conditions being satisfied, the Board expects the Disposal to complete in H1 2021.
- The Board considers the terms of the Disposal to be in the best interests of the Company and its shareholders. Accordingly, the Board intends to unanimously recommend that shareholders vote in favour of the resolution to approve the Disposal.

In the year ended 31 December 2019, the Global Tote business generated revenue of £30.8 million, adjusted EBITDA of £5.6 million and a loss before tax of £0.8 million. As at 31 December 2019, the Global Tote business had gross assets of £30.1 million. For the six months ended 30 June 2020, the Global Tote business generated revenue of £12.0 million, adjusted EBITDA of £1.6 million and a loss before tax of £1.2 million. As at 30 June 2020, the Global Tote business had gross assets of £29.3 million.

Given the historically low level of prevailing interest rates available on cash deposits, the sale of the Global Tote business will be earnings dilutive to the Group in the short term. However, the Board believes that over the medium to long term, the Disposal will improve total shareholder returns as a result of the potential use of proceeds.

Following the Disposal, the Group will comprise of the following businesses:

- Venues: The Venues business operates legal betting on horseracing, greyhound racing and Jai alai under an in-perpetuity licence in the State of Connecticut, USA. It offers omni-channel betting entertainment through 12 physical retail locations and an online platform, www.mywinners.com, and holds the right to expand to up to 24 physical locations. The business also includes a separate US retail “B2C” platform and provides venue management services to a range of clients.
- Lottery: The Lottery business provides draw-based lottery platforms and services. In 2019, the Group acquired Lot.to systems, an iLottery, CRM, and games management platform, to complement the Group’s successful draw-based games.
- Bump 50:50: The Bump 50:50 business supplies in-stadia, web and mobile electronic lotteries to major league sports teams, collegiate sports organisations, and entertainment venues. In 2019, the Bump 50:50 business began to acquire clients from the non-sport philanthropy segment with deployments of its online raffles. As of 30 June 2020, the Bump 50:50 business had 135 clients in the US and Canada, across approximately 20 US states and Canadian provinces.

The Disposal is classified as a Class 1 transaction as defined by Chapter 10 of the FCA’s Listing Rules. As such, the Disposal will be conditional upon shareholder approval at a general meeting. The Company expects to publish a circular (the “Circular”) setting out further details of the Disposal and convening a general meeting to approve the transaction (the “General Meeting”) in due course. The Board considers the terms of the Disposal to be in the best interests of the Company and its shareholders. Accordingly, the Board intends to unanimously recommend that shareholders vote in favour of the resolution to approve the Disposal at the General Meeting.

In accordance with the requirements of Note 1 on Rule 21.1 of the Code, the Circular will also provide further details on the status of the Possible Offer as at the date of circulation of the Circular. As a result of the Possible Offer, Sportech is in an offer period (as defined in the Code) and the Disposal is, therefore, also conditional upon either (i) shareholder approval at the General Meeting for the purposes of Rule 21.1 of the Code, or (ii) the current offer period ending prior to the date of the General Meeting.

Completion is conditional on BetMakers receiving or, where appropriate, waiving approval to transfer the relevant licences required for the operation of the Global Tote business. As is customary for transactions of this type, BetMakers can terminate the agreement in the event of a material adverse change (MAC) in the Global Tote business. If the agreement is terminated after payment of the 20 per cent. initial cash payment, such payment does not become refundable.

Subject to the conditions being satisfied, the Board expects the Disposal to complete in H1 2021.

Commenting on the Disposal, Sportech's CEO, Richard McGuire, said:

"We previously set out that one of the Group's transformation objectives included evaluating and executing material corporate opportunities which deliver tangible investor returns. The Board believe this transaction very much achieves that objective. In addition to the range of opportunities which the net proceeds are expected to provide to the Group, we believe the BetMakers product suite will further enhance the existing Sportech platform providing additional opportunities for global gaming clients."

Commenting on the proposed transaction, BetMakers CEO, Todd Buckingham said:

"BetMakers' proposed acquisition of Sportech's Global Tote business is part of our company's international expansion plans to help power the excitement, growth and sustainability of horse racing globally. We consider the Sportech name to be synonymous with racing around the world, and we believe that BetMakers has the complementary knowledge and assets – and shared values built around a passion for racing – to help deliver ongoing success for clients, partners and all stakeholders in the racing industry. It is BetMakers' intention to retain all staff working in the Global Tote business and make significant investments into the business operations to keep up with the fast-moving sports betting industry. We are excited not only to be a partner that sustains racing through innovation in technology, services and solutions in the existing Sportech footprint, but also to pursue the growth opportunities that are being presented as new regulated markets open up such as the U.S."

Background on BetMakers Technology Group Ltd

- BetMakers is a global ‘business to business’ (B2B) wagering technology and data company servicing the horse racing industry. BetMakers’ headquarters is in New South Wales, Australia, with bases in Melbourne, Brisbane, Sri Lanka, London, and New Jersey. BetMakers has been a publicly listed company on the Australian stock exchange (ASX:BET) since December 2015.
- BetMakers’ solutions are based on innovation and integrity products that link racing bodies and tracks with various wagering operators. BetMakers’ various offerings and products enhance the options available to wagering operators, which is then passed on to the operator’s customers.
- BetMakers is passionate about racing and is confident the industry can grow in the U.S., capitalizing on the legalization of sports betting and the entry to the U.S. market of international wagering operators.
- Following de-regulation approximately 10 years ago, Australia has seen wagering turnover on racing double through the introduction of innovation, competition and the growth of products such as fixed odds wagering. Total turnover on racing increased from AUD\$12Billion to AUD\$25Billion. With this boom in the industry, prizemoney has seen record returns to participants, resulting in a healthier racing ecosystem from top to bottom.
- BetMakers is investing in the U.S. racing market to promote growth for the betterment of the industry as a whole. BetMakers envisions great growth in the U.S. racing industry’s wagering market share in the U.S. competitive sports betting market. BetMakers is committed to working collaboratively with racing bodies, wagering operators and regulators to grow wagering turnover and returns back into the U.S. racing industry.
- BetMakers’ goal is to increase the racing industry’s overall ‘slice of the pie’ in the U.S. wagering space (in comparison to sports wagering).
- BetMakers is committed to working collaboratively with all sectors of the U.S. racing industry to build a fair and equitable model to stabilize and grow an otherwise declining industry. Growing the racing industry and assisting the industry to grab its ‘slice of the pie’ will result in greater commercial returns to racing bodies, which enables more resources to improve the racing experience for participants, such as prizemoney for owners. This increase in resources flows on to breeders, owners, trainers and jockeys creating net positives for the industry as a whole.
- BetMakers’ recently announced acquisition of Sportech’s Digital and Racing assets is an investment in its belief in the growth of the U.S. racing industry. BetMakers’ current wagering product options are complemented by the acquisition of Sportech’s existing business and network.

FOR IMMEDIATE RELEASE.

1 December 2020

Sportech plc

("Sportech", the "Company" or the "Group")

Proposed disposal of the Global Tote business

Further to its announcement yesterday, Sportech, an international betting technology business, is pleased to announce that it has entered into a conditional agreement to sell its Global Tote business to Betmakers Technology Group Ltd ("BetMakers") (the "Disposal"), for a total cash consideration of £30.9 million (the "Consideration"), subject to an adjustment to reflect the level of working capital in and the valuation of the US defined benefit pension liability attributable to the Global Tote business at completion of the Disposal ("Completion").

The Global Tote business provides pari-mutuel technology solutions and services to gaming businesses around the world, predominantly to the global horseracing betting industry. Its systems processed approximately US\$12.2 billion in betting handle in the financial year ended 31 December 2019 for clients across 37 countries.

Highlights

- Agreement signed to sell the Global Tote business for a total cash consideration of £30.9 million, conditional upon approval of the Disposal by Sportech's shareholders and BetMakers receiving relevant regulatory approvals prior to Completion.
- The current estimated US defined benefit pension liability attributable to the Global Tote business is approximately £1.0 million.
- An initial cash amount, representing 20 per cent. of the Consideration, is payable upon approval of the Disposal from Sportech's shareholders and is non-refundable.
- The remaining Consideration is payable in cash upon Completion.
- It is Sportech's board of directors' (the "Board") current intention to return the majority of the proceeds to the Company's shareholders when the Board considers it opportune to do so. The timing and extent of any such return will take into account the Group's organic and inorganic investment opportunities, as well as the Group's general ongoing capital requirements, in light of plausible trading scenarios.
- The Disposal is classified as a Class 1 transaction as defined by Chapter 10 of the FCA's Listing Rules. In addition, the Company is in an offer period (as defined in the City Code on Takeovers and Mergers (the "Code")) as a result of the possible cash offer for the Company by Standard

General L.P. announced on 5 November 2020 (the “Possible Offer”). The Disposal may, therefore, require shareholder approval pursuant to Rule 21.1 of the Code. As such, a circular containing further details of the Disposal and a notice of a general meeting to approve the Disposal for the purposes of the Listing Rules and the Code will be sent to Sportech’s shareholders in due course.

- Subject to the conditions being satisfied, the Board expects the Disposal to complete in H1 2021.
- The Board considers the terms of the Disposal to be in the best interests of the Company and its shareholders. Accordingly, the Board intends to unanimously recommend that shareholders vote in favour of the resolution to approve the Disposal.

In the year ended 31 December 2019, the Global Tote business generated revenue of £30.8 million, adjusted EBITDA of £5.6 million and a loss before tax of £0.8 million. As at 31 December 2019, the Global Tote business had gross assets of £30.1 million. For the six months ended 30 June 2020, the Global Tote business generated revenue of £12.0 million, adjusted EBITDA of £1.6 million and a loss before tax of £1.2 million. As at 30 June 2020, the Global Tote business had gross assets of £29.3 million.

Given the historically low level of prevailing interest rates available on cash deposits, the sale of the Global Tote business will be earnings dilutive to the Group in the short term. However, the Board believes that over the medium to long term, the Disposal will improve total shareholder returns as a result of the potential use of proceeds.

Following the Disposal, the Group will comprise of the following businesses:

- Venues: The Venues business operates legal betting on horseracing, greyhound racing and Jai alai under an in-perpetuity licence in the State of Connecticut, USA. It offers omni-channel betting entertainment through 12 physical retail locations and an online platform, www.mywinners.com, and holds the right to expand to up to 24 physical locations. The business also includes a separate US retail “B2C” platform and provides venue management services to a range of clients.
- Lottery: The Lottery business provides draw-based lottery platforms and services. In 2019, the Group acquired Lot.to systems, an iLottery, CRM, and games management platform, to complement the Group’s successful draw-based games.
- Bump 50:50: The Bump 50:50 business supplies in-stadia, web and mobile electronic lotteries to major league sports teams, collegiate sports organisations, and entertainment venues. In 2019, the Bump 50:50 business began to acquire clients from the non-sport philanthropy segment with deployments of its online raffles. As of 30 June 2020, the Bump 50:50 business had 135 clients in the US and Canada, across approximately 20 US states and Canadian provinces.

The Disposal is classified as a Class 1 transaction as defined by Chapter 10 of the FCA’s Listing Rules. As such, the Disposal will be conditional upon shareholder approval at a general meeting. The Company expects to publish a circular (the “Circular”) setting out further details of the Disposal and convening a general meeting to approve the transaction (the “General Meeting”) in due course. The Board considers the terms of the Disposal to be in the best interests of the Company and its shareholders. Accordingly, the Board intends to unanimously recommend that shareholders vote in favour of the resolution to approve the Disposal at the General Meeting.

In accordance with the requirements of Note 1 on Rule 21.1 of the Code, the Circular will also provide further details on the status of the Possible Offer as at the date of circulation of the Circular. As a result of the Possible Offer, Sportech is in an offer period (as defined in the Code) and the Disposal is, therefore, also conditional upon either (i) shareholder approval at the General Meeting for the purposes of Rule 21.1 of the Code, or (ii) the current offer period ending prior to the date of the General Meeting.

Completion is conditional on BetMakers receiving or, where appropriate, waiving approval to transfer the relevant licences required for the operation of the Global Tote business. As is customary for transactions of this type, BetMakers can terminate the agreement in the event of a material adverse change (MAC) in the Global Tote business. If the agreement is terminated after payment of the 20 per cent. initial cash payment, such payment does not become refundable.

Subject to the conditions being satisfied, the Board expects the Disposal to complete in H1 2021.

Commenting on the Disposal, Sportech's CEO, Richard McGuire, said:

"We previously set out that one of the Group's transformation objectives included evaluating and executing material corporate opportunities which deliver tangible investor returns. The Board believe this transaction very much achieves that objective. In addition to the range of opportunities which the net proceeds are expected to provide to the Group, we believe the BetMakers product suite will further enhance the existing Sportech platform providing additional opportunities for global gaming clients."

Commenting on the proposed transaction, BetMakers CEO, Todd Buckingham said:

"BetMakers' proposed acquisition of Sportech's Global Tote business is part of our company's international expansion plans to help power the excitement, growth and sustainability of horse racing globally. We consider the Sportech name to be synonymous with racing around the world, and we believe that BetMakers has the complementary knowledge and assets – and shared values built around a passion for racing – to help deliver ongoing success for clients, partners and all stakeholders in the racing industry. Background on BetMakers Technology Group Ltd

- BetMakers is a global ‘business to business’ (B2B) wagering technology and data company servicing the horse racing industry. BetMakers’ headquarters is in New South Wales, Australia, with bases in Melbourne, Brisbane, Sri Lanka, London, and New Jersey. BetMakers has been a publicly listed company on the Australian stock exchange (ASX:BET) since December 2015.
- BetMakers’ solutions are based on innovation and integrity products that link racing bodies and tracks with various wagering operators. BetMakers’ various offerings and products enhance the options available to wagering operators, which is then passed on to the operator’s customers.
- BetMakers is passionate about racing and is confident the industry can grow in the U.S., capitalizing on the legalization of sports betting and the entry to the U.S. market of international wagering operators.
- Following de-regulation approximately 10 years ago, Australia has seen wagering turnover on racing double through the introduction of innovation, competition and the growth of products such as fixed odds wagering. Total turnover on racing increased from AUD\$12Billion to AUD\$25Billion. With this boom in the industry, prizemoney has seen record returns to participants, resulting in a healthier racing ecosystem from top to bottom.
- BetMakers is investing in the U.S. racing market to promote growth for the betterment of the industry as a whole. BetMakers envisions great growth in the U.S. racing industry’s wagering market share in the U.S. competitive sports betting market. BetMakers is committed to working collaboratively with racing bodies, wagering operators and regulators to grow wagering turnover and returns back into the U.S. racing industry.
- BetMakers’ goal is to increase the racing industry’s overall ‘slice of the pie’ in the U.S. wagering space (in comparison to sports wagering).
- BetMakers is committed to working collaboratively with all sectors of the U.S. racing industry to build a fair and equitable model to stabilize and grow an otherwise declining industry. Growing the racing industry and assisting the industry to grab its ‘slice of the pie’ will result in greater commercial returns to racing bodies, which enables more resources to improve the racing experience for participants, such as prizemoney for owners. This increase in resources flows on to breeders, owners, trainers and jockeys creating net positives for the industry as a whole.
- BetMakers’ recently announced acquisition of Sportech’s Digital and Racing assets is an investment in its belief in the growth of the U.S. racing industry. BetMakers’ current wagering product options are complemented by the acquisition of Sportech’s existing business and network.

Re: Equine laboratory agreement with the University of Kentucky-Equine Analytical Chemistry Laboratory

The Kentucky Horse Racing Commission staff has been in discussions with Dr. Scott Stanley PhD. regarding a proposal to establish the University of Kentucky- Equine Analytical Chemistry Laboratory (UK-EACL) as the Commission's new drug testing laboratory. The UK-EACL, under the direction of Dr. Stanley, is on the cutting edge of technology. This laboratory conducts ultramodern anti-doping testing and applied research, has upgraded testing equipment to remain on the forefront of testing, and has recently broken ground on a new expanded laboratory and testing facility. The UK-EACL is committed to identifying new emerging threats in racing. We believe that this laboratory will be a leader in the testing world.

The UK-EACL has been granted interim accreditation by the RMTC and is eligible to conduct testing for the KHRC and other racing jurisdictions. The UK-EACL was formerly known as the the drug testing laboratory for the United States Equestrian Federation (USEF), and still tests for the USEF.

Benefits to the KHRC in using the UK-EACL (other than the aforementioned criteria) include the following:

- The facility's very near proximity to our racing venues,
- Reducing the shipping times and costs of samples,
- The convenience of having the lab and its director physically nearby for in-person consultation, and
- The financial benefit to the state of using our tax dollars to support a Kentucky facility.

KHRC and UK staff have worked together to draft a preliminary Memorandum of Agreement (MOA), which will set forth the terms of our proposed agreement between the KHRC and the UK-EACL. If the

MOA is approved by the EDRC and the full Commission, then the KHRC would terminate its contract with Industrial Labs. The KHRC would subsequently enter into the new MOA with the UK-EACL.

We anticipate that the start of testing at UK-EACL would begin at the start of the Ellis Park meet, on June 27, 2021.

The EDRC discussed this issue at its April 9, 2021 meeting and voted unanimously to approve this change.

For the reasons set forth above, the KHRC staff recommends changing the Commission's equine testing lab from Industrial Labs to the UK-EACL.

Re: Executive Administrative Secretary position

The EDRC is in need of an Executive Administrative Secretary. In the past, KHRC staff members working full-time in other areas have performed EDRC tasks. Those tasks include but are not limited to, documenting compliance with new rules, as well as organizing EDRC record and racehorse treatment reports. However, these new duties have now become a full-time position. The KHRC can no longer assign them to the full-time staff in licensing, KTDF, and other areas of the office.

The KHRC proposes creating a new full-time, non-merit position, dedicated to these duties. If approved, this position will be funded out of the EDRC funds. If time allowed the successful applicant would be available to help out in other areas when the need arose.

KHRC regulations allow creation of an administrative staff position funded by EDRC funds.

The EDRC members discussed this issue in the April 9, 2021 meeting and approved the new position

The KHRC staff recommends approval of establishing this position.

RE: Requested Change to Churchill Downs' Proposed 2021 Spring Race Meet Officials

Dear Ms. Danner:

The Kentucky Horse Racing Commission ("KHRC") is in receipt of Churchill Downs' requested change to its proposed 2021 Spring Race Meet Officials. As authorized by KRS 230.230(1), I hereby grant conditional approval of that request. The full KHRC will consider ratification of this conditional approval at its April 2021 meeting. However, it is understood that conditional approval is necessary at this time in order to ensure a timely opening to the 2021 Spring Race Meet. The 2021 Spring Race Meet is currently scheduled to begin four (4) days after the KHRC's next meeting, and Churchill Downs needs ample notice of its meet officials in order to prepare for that meet.

Very truly yours,

DATE PREFERENCE SYSTEM

The Date System of preference will be used at Ellis Park as described below:

Foal Certificates and digital foal certificates no longer are required to be on file in the racing office to enter or start at Ellis Park; however, foal certificates and digital foal certificates must be on file to obtain a preference date and to get a horse tattooed.

Each day's overnight will list the dates of horses in and on the also-eligible list to enable trainers to see what dates are getting horses in over-filled races.

1. In over-filled races, preference will be given to horses in order of their assigned preference dates, earliest date first. Horses having identical dates will be chosen by lot, however, where entry and running dates are the same, the horse with the entry date will have preference.
2. All horses intended for racing at Ellis Park will be assigned a preference date. Dates assigned will be of two types:
3. **FOR A ZERO DATE** foal papers and digital foal papers must be turned in to the identifier by Sunday, June 27, 2021.

E-Date

This date will correspond to:

- a) The day on which a horse's foal papers or digital foal papers are submitted to the identifier (the earliest date being the day when entries are first taken for the meeting). An unnamed horse will not receive an E-date.
- b) The day on which a horse is first entered if his papers or digital foal papers are not on file with the identifier.

To qualify for the latter E-date, a horse must have been excluded from a race which appears on the overnight or he must have been entered in a condition book race which failed to fill through insufficient entries.

R-Date

This date will correspond to the day of a horse's most recent race at Ellis Park. An R-Date will also be assigned to a horse which scratches.

4. A horse retains his R-Date until he receives a newer R-Date. No horse with an established R-Date may receive an E-Date. A horse whose papers or digital papers are removed from the identifier's office will lose his date and must subsequently re-establish a date in order to receive preference. A horse with an E-Date cannot receive a newer E-Date. Horses starting at another race track will forfeit any date they may have at Ellis Park.
5. Preference dates will consist of two categories: Dirt (D) and Turf (T). Preference dates are good for any type of race or distance.
6. A horse that runs in a race, which has been taken off the turf will retain its turf date. A scratched horse will receive an R-date from the date scratched.
7. When a race is taken off the turf, main track only (MTO) horses will receive an R-Date if they run or scratch. If the race remains on the turf, main track only (MTO) horses will retain their previous date and will not be permitted to start.
8. No E-Date will be assigned to the second choice of an unsplit same-owner entry.

9. A horse which has been placed on a list (veterinarian, steward, starter or paddock judge) will lose their date and be assigned an R-Date corresponding to the day removed from list.
10. A horse which is a scheduled starter in a cancelled race will not receive an R-Date for that race but will retain its previous date.
11. The draw of stakes and handicap race is not subject to date preference.
12. Preference dates are transferred through change of ownership and changes in trainer after the proper transfer procedure have been completed through the Steward's office and delivered to the Racing Secretary's office.
13. Date preference rules will not supersede KHRC rules regarding preference, eligibility or scratches.
14. Winners will be preferred in all non maiden races.

CONDITION PREFERENCE

Horses are preferred by their available conditions in all allowance races beginning with Graded Stakes winners (Grade I-II-III), providing the horse has finished 1st, 2nd, 3rd or 4th for \$40,000 or more since starting for less than \$40,000. In allowance/optional claiming races a horse's preference cannot exceed the condition of the race. Starter races for less than \$25,000 will not be preferred.

WINNERS ARE PREFERRED IN ALL NON-MAIDEN RACES.

Also-Eligibles

If there are any scratches in a race with also-eligibles, the also-eligible horses will be permitted to move into the race in the order listed on the overnight.

810 KAR 4:010. HORSES

The stewards may at any time require presentation of a horse's registration certificate, virtual certificate, or racing permit or other proof of ownership.

Upon claim, sale or any other transfer of ownership, the horse's registration certificate or racing permit shall be given to the new owner, and any virtual certificate shall be transferred to the new owner electronically. The new owner shall report the change in ownership to the stewards.
